

ABOUT

INNOVATIVE FORM MEETS VERSATILE FUNCTION

ABOUT US

Clarus GlassboardsSM is revolutionizing how we communicate with visual display systems. As a leading manufacturer of innovative glass dry-erase and architectural systems, Clarus continually develops cutting-edge products and technologies to bring real-life solutions to the marketplace.

THE LOOK

Sophisticated. Unique. Cutting edge. Clarus Glassboards transform your workspace with a forward-thinking appeal. Create endless design possibilities with beautiful glass finishes, custom colors and sizing options.

COMMITMENT TO SUSTAINABILITY

Clarus is committed to sustainable products and manufacturing processes, including recycling of raw inputs and by-products, waste minimization and pollution prevention. Glass dry-erase systems provide the superior alternative to toxic materials found in synthetic whiteboards. Stain-free surfaces ensure your Glassboards will last the life of the wall.

WHY WRITE ON CLARUS GLASSBOARDS?

The moment the marker hits the Glassboard, you can immediately tell the difference. The silky-smooth contact between marker and Glassboard takes presentations to another level. Clarus Glassboards eliminate ghosting or staining, allowing years of worry free enjoyment and use. Yesterday's presentation will never again be today's distraction. In addition, permanent markers, dry-erase, wet-erase and grease pens are all compatible with our Glassboards.

ARCHITECTURAL SOLUTIONS

From Magnetic Glass Walling to high-end architectural back-painted glass systems, Clarus is pioneering creative architectural solutions.
